PROFESSIONAL SUMMARY Financial Data Analyst with 4 years of experience bridging finance and data engineering. Focused on automating financial reporting, building ETL pipelines for market data, and supporting investment teams with quantitative analysis. Proficient in Python, SQL, and advanced Excel.

WORK EXPERIENCE

Capital Alpha | Bangalore, India *Senior Quantitative Analyst* | May 2023 – Present • Write and maintain Python scripts (pandas, NumPy) to automate daily P&L reporting and VaR (Value at Risk) calculations, saving the research team roughly 12 hours of manual Excel work per week. • Built an automated data pipeline that pulls end-of-day pricing data from NSE/BSE feeds and stores it in an internal PostgreSQL database. • Assist portfolio managers by running backtests on mid-cap equity strategies and preparing weekly quantitative performance reports. • Debug and optimize legacy VBA macros used for options pricing and portfolio rebalancing.

Quantify Analytics | Bangalore, India *Data Analyst* | Jan 2021 – Apr 2023 • Processed and cleaned large datasets of historical stock prices and corporate actions using SQL before loading them into client-facing data warehouses. • Developed Power BI dashboards for US-based asset management clients to track mutual fund performance against benchmark indices (Nifty 50, S&P 500). • Wrote automated data quality checks to flag missing or anomalous pricing data, reducing downstream reporting errors by about 20%. • Collaborated with the engineering team to document data dictionaries and schema changes for financial datasets.

Growth Edge | Bangalore, India *Junior Financial Analyst* | July 2020 – Dec 2020 • Maintained and updated complex 3-statement financial models in Excel for mid-market corporate clients. • Collected and standardized financial data from public filings and platforms like Screener.in and Moneycontrol for valuation trackers. • Assisted senior analysts with month-end reconciliations and prepared basic variance analysis reports (budget vs. actuals).

EDUCATION

Bangalore University | Bangalore, India *Bachelor of Commerce (B.Com) - Major in Finance* | 2017 – 2020 • Relevant Coursework: Corporate Finance, Business Statistics, Financial Accounting, Cost Management.

TECHNICAL SKILLS • **Programming & Data:** Python (Pandas, NumPy, BeautifulSoup), SQL (PostgreSQL), VBA • **BI & Visualization:** Power BI, Advanced Excel (Power Query, Pivot Tables, Index/Match, Macros) • **Finance & Domain:** Financial Modeling, Quantitative Analysis, Risk Metrics (VaR), Equity Research, ETL Pipelines • **Platforms:** NSE/BSE Data Feeds, Git/GitHub,
